

PETITION TO PROTECT THE STATE'S ECOLOGY FROM INAPPROPRIATE HUNTING ACTIVITIES

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales in Parliament assembled.

The petition of the concerned citizens of NSW

brings to the attention of the House the threat to nature posed by proposals in the Game and Feral Animal Control Amendment Bill 2009 which will allow:

- i) hunting in National Parks;
- ii) private game parks;
- iii) hunting of native animal, including birds; and
- iv) the release or relocation of introduced birds.

The undersigned petitioners therefore ask the Legislative Assembly to protect the state's ecology and oppose in its entirety the Game and Feral Animal Control Amendment Bill 2009:
